# STONE CRUSHING MACHINE

**Henan Hongxing Heavy Machinery Co., Ltd.**

# Major Equipment

01

Sandstone equipment includes jaw crusher, impact crusher, cone crusher, sand making machine, hammer crusher, roll crusher, mobile crusher, vibrating screen, sand washer, vibrating feeder, combination crusher, hydraulic cone crusher, belt conveyor, tertiary crusher, sand mixer and so on.

## The Performance Characteristics of Stone Crushing Machine:

- Easy to adjust, lower failure rate, more fine grade aggregate.
- Often being used in the medium and fine crushing of those materials.
- Adjustable product particle size, durable working ability, layered crushing and big crushing ratio.
- Large scale manufacturer can promise on product quality and sales service.

# Production Line

02

We will always serve customers by the service tenet of to be responsible for every procedure; for every machine and every customer. We will do our best to get your satisfaction. We firmly believe that we can get sincere repay with our sincere dedication.

## Stone Production Line

Stone crushing production line is mainly composed of vibrating feeder, jaw crusher, impact crusher, vibrating screen, belt conveyor and centralized electronic control.

The designed output is 50-800t/h and cone crusher and dust removing equipment can be equipped to satisfy different processing needs of the customers.

## Sand Production Line

Sand making production line is generally composed of vibrating feeder, jaw crusher, vertical shaft impact crusher (sand maker),

vibrating screen, sand washer, belt conveyor and centralized electronic control.

It is highly automatic. The efficiency is high, operation cost is low, crushing ratio is high, capacity is high, and pollution is very low.

Size of final product is even, and with good shape, which complies with requirement for highway.

## About Hongxing

03

Henan Hongxing Mining Machinery Co., Ltd. is a large-sized joint-stock enterprise integrated with the scientific research, production and sales of heavy mining machinery. It is located in high and new technology industrial development zone, Zhengzhou with an area of 200,000 m<sup>2</sup>.

Our company regards quality as life and customers as God, and always follows the quality principle of being responsible for every procedure, every product and every customer and serves the customers with heart and soul. All of our products have passed the authentication of ISO9001 international quality system and the "Hongxing Brand" equipment manufactured by our company has been awarded as "China Famous Brand". Reliable and stable product quality makes the production and sales amount and all the comprehensive economic indexes of our company lead the domestic mining machinery industry and our products have been sold to more than 30 countries and areas.
